Company Info :

Hong Kong Corporate Security Limited is a rare company and private security company providing one-stop high quality services in Hong Kong. Its services include where abouts monitoring services, escort services for important goods, insurance services, network security services and various time networks. Security-related lectures, etc., all of the above services are suitable for today's customers.

The company's commitment is to "Protect Corporate Security and Professional Services For Enterprise." The company's professional team consists of about 50 people, with elites. The management comes from the top leader of the police force, the chief investigator of ICAC Execution Department, Canadian police officers, information technology experts, network security experts, financial professionals, accounting professionals and members. All the investigators were well training by professional teams.

The company uses a variety of detection instruments, which is world-class, such as high-end anti-eavesdrop detection instruments from the United States, Russia and Israel, effectively detecting customers' offices, residences, smart phones and computers, etc., ensuring that there is no Eavesdropping or pirate software was installed by lawless people.

In addition to the use of many advanced detection equipment, the company also exclusive agent for a variety of anti-eavesdrop products, the world's exclusive agent for the only anti-eavesdrop Bluetooth headset, can completely eliminate the possibility of eavesdropping during the call.

Our company's professionals also provide a variety of lectures for our enterprise customers, including network security, data security, intellectual property and anti-corruption.

In 2017, our company won the 2017 Strength Brand Award hosted by Economic Week Magazine. We also became the only private security company appointed to be the security guard of the entire venue, celebrating the 20th anniversary of Hong Kong's return to the China 2017 – “Creativity Drives Achievements”.
