香港中華廠商聯合會會長 盧金榮博士 BBS 太平紳士 獻詞

Message by Dr Wingco Lo, BBS JP
President, The Chinese Manufacturers' Association of Hong Kong

在國家「十五五」規劃推進高水平對外開放的背景
下，本地及內地企業正加快「出海」步伐。然而，面對極
端氣候頻發以及消費者對永續產品的重視，全球供應鏈對
碳排放、綠色採購及資訊披露的要求亦日趨嚴謹。良好的
ESG（環境、社會與企業管治）表現，已然成為企業能否
成功融入並立足國際供應鏈體系的關鍵所在。

在特區政府與工商界的共同推動下，近年香港企業對
ESG 的理解與重視程度已顯著提升。業界對可持續發展
的實踐，不再停留於零散的環保或公益活動，而是將其內
化為系統性的營運與管理策略，並將資源集中投放於攻堅
重點與薄弱環節。這表明本港企業在可持續發展之路上，
正實現從「量變」到「質變」的飛躍。

然而，中小企業在推動 ESG 時，普遍仍面臨數據收
集困難、專才匱乏、員工參與度低等瓶頸。此時，標竿企
業的成功經驗便顯得尤為寶貴，能為廣大中小企提供指
引，將 ESG 理論轉化為實務操作。

作為工商界實現可持續發展的重要夥伴，廠商會一
直致力透過研究、培訓、技術諮詢及認證等一系列服務，
協助企業提升 ESG 表現。其中，本會與香港品牌發展局
合辦的「香港 ESG 獎」已踏入第四屆，這個獎項除了嘉
許 ESG 表現卓越的企業，鼓勵它們精益求精外，更希望
藉由來自不同行業、不同規模的得獎案例，為工商界提供
切實可行的實踐範例。

同時，我們亦欣見越來越多企業簽署「ESG 約章」，
以實際行動立下推動永續發展的長遠承諾，共同為建構更
具韌性與社會責任的商業生態作出貢獻。

在此，我謹代表廠商會，衷心感謝各政府部門、贊助
機構、支持團體與專業界別對「香港 ESG 獎」的鼎力支
持，並向所有獲獎企業及簽署「ESG 約章」的企業致以
最誠摯的祝賀與感謝。全賴你們的積極參與和深耕細作，
永續經營的價值觀才能植根香港，並轉化為驅動香港經濟
高質量發展與重塑國際競爭力的全新引擎。

展望未來，廠商會將繼續發揮橋樑與推動者的角色，
積極響應香港首份《五年規劃》，協助本地企業掌握
ESG 的最新趨勢，推動綠色轉型、綠色金融及綠色科技
發展。我們期待更多企業加入我們的行列，凝聚社會各界
的智慧與力量，攜手為香港構築可持續未來。

As our nation continues to pursue high-level
opening-up under its 15th Five-Year Plan, Hong Kong
and Mainland enterprises are accelerating their
global expansion. At the same time, increasingly
frequent extreme weather events and growing
consumer demand for sustainability are driving
global supply chains to impose far stricter standards
regarding carbon emissions, green procurement, and
transparent disclosure. In this evolving landscape,
strong Environmental, Social, and Governance (ESG)
performance has become critical for businesses seeking
to integrate into and thrive in international supply
chains.

Through the joint efforts of the HKSAR Government
and the business sector, Hong Kong enterprises have
significantly deepened their understanding of and
commitment to ESG in recent years. Sustainability is no
longer viewed as a set of isolated green or philanthropic
initiatives; instead, it is systematically embedded into

core operations and management strategies, with resources directed towards key priorities and critical bottlenecks. This shift represents a major breakthrough for local businesses, moving beyond incremental steps to achieve a truly meaningful transformation on their sustainability journey.

Nevertheless, many small and medium-sized enterprises (SMEs) continue to navigate challenges in ESG implementation, including complex data collection, talent shortages, and limited employee engagement. This is where industry frontrunners play a vital role. Their success provides a practical roadmap, enabling SMEs to bridge the gap between sustainability theory and daily business reality.

As a vital partner in driving sustainable business, the Chinese Manufacturers' Association of Hong Kong (CMA) is dedicated to helping enterprises elevate their ESG performance through research, training, technical consulting, and certification. Among these initiatives, the Hong Kong ESG Awards, co-organised with the Hong Kong Brand Development Council, is now in its fourth year. Beyond honouring outstanding ESG performers and inspiring continuous excellence, the event showcases real-world success stories across diverse sectors and scales, offering actionable benchmarks for the wider business community.

We are also delighted to see an increasing number of companies sign the ESG Pledge, taking concrete action to affirm their long-term commitment to sustainable development and working together to build a more resilient, socially responsible business ecosystem.

On behalf of the CMA, I would like to express my sincere gratitude to the government, sponsors, supporting organisations, and professional bodies for their unwavering support. I also extend my warmest congratulations and appreciation to all award-winning companies and ESG Pledge signatories. Through your active engagement and dedication, sustainability is taking deep root in Hong Kong, serving as a powerful engine for high-quality economic development and strengthening our competitive edge on the global stage.

Looking ahead, the CMA will continue to serve as a bridge and driving force for sustainable growth. In full alignment with Hong Kong's First Five-Year Plan, we remain committed to helping local enterprises navigate evolving ESG trends and capture new opportunities across green transformation, green finance, and green technology. We look forward to partnering with more businesses, uniting the community's wisdom and strength to build a more sustainable future for Hong Kong.

香港中華煤氣有限公司

The Hong Kong and China Gas Company Limited

ESG 核心項目 ESG Core Project

領航海、陸、空三大運輸的低碳轉型

**Advancing the Low -Carbon Transformation
of Sea, Land and Air Transport**

公司網頁 Website

www.towngas.com

煤氣公司成立於 1862 年，是香港歷史最悠久的公用事業機構，企業管治及營運均達到世界級水準。我們自創立以來不斷創新，從最初供應煤氣以燃點街燈，發展至今，為廣大市民及各行各業提供安全、可靠的能源方案，並在大中華能源行業中保持領先地位。煤氣公司早於 1994 年進軍中國內地市場，推動低碳轉型及可持續發展。

煤氣公司自 1960 年代率先停用煤炭，其後引入石腦油、天然氣，並將生物沼氣納入生產原料。時至今日，我們在新能源領域的策略性部署，以及對發展潔淨、低碳能源的堅持，早已植根於集團的發展基因。

我們也把握能源轉型契機，積極開拓綠色新能源業務，包括分別適用於海、陸、空運輸的綠色甲醇、氫能及可持續航空燃料（SAF），助力國家實現雙碳目標及香港在 2050 年前達至碳中和的願景，攜手邁向可持續發展的未來。

煤氣公司聚焦綠色甲醇、氫能及可持續航空燃料（SAF）三大領域，推動海、陸、空交通減排方案落地，以實際營運成果履行低碳承諾

Towngas focuses on three key areas — green methanol, hydrogen energy and Sustainable Aviation Fuel (SAF) — to drive decarbonisation solutions across marine, land and air transport, and to fulfil our low-carbon commitments with tangible operational results

集團在內蒙古以生物質循環廢棄物和廢輪胎生產的綠色甲醇。
The Group produces green methanol in Inner Mongolia utilising bio-circular waste and end-of-life tyres.

大埔煤氣廠內設置的煤氣管網取氫系統
Hydrogen extraction system from gas network located in Tai Po Gas Production Plant

Established in 1862, Towngas is Hong Kong's first public utility, with corporate governance and operations reaching world-class standards. Guided by a culture of continuous innovation, we have evolved from providing town gas for street lamps to maintaining a leading position in the energy sector across Greater China, providing safe and reliable energy solutions to the public and industries alike. Entering the Chinese Mainland market in 1994, we have since accelerated our low-carbon transition and sustainability development.

Since the 1960s, Towngas has taken the lead in phasing out coal. We subsequently introduced naphtha, natural gas and biogas into our production feedstock. To this day, our strategic positioning in the

new energy sector, and our steadfast dedication to advancing cleaner, lower-carbon energy sources have become deeply ingrained in our DNA.

We are also seizing the opportunities arising from the energy transition to actively develop our green and new energy businesses, encompassing green methanol, hydrogen, and sustainable aviation fuel (SAF) tailored for sea, land, and air transport respectively. In doing so, we are contributing to the national dual carbon goals and supporting Hong Kong's vision of achieving carbon neutrality by 2050, collaboratively striving for a sustainable future.

江蘇及馬來西亞廠房相繼投產後，由集團孵化並作為戰略股東的怡斯萊（EcoCeres）亦與東莞市政府簽署協議，計劃在當地興建新廠房，助力綠色飛行發展

Following the successful operations of its plants in Jiangsu and Malaysia, EcoCeres, incubated by the Group, which remains a strategic shareholder, has recently signed an agreement with the Dongguan Municipal People's Government to build a new plant in the city, contributing to green aviation development

公司名稱 Company Organisation

中華商務聯合印刷 (香港) 集團有限公司
C & C JOINT PRINTING (H.K.) GROUP Limited

ESG 核心項目 ESG Core Project

上海聯印綠色工廠轉型
C & C Shanghai Green Factory Transformation

公司網頁 Website

www.candcprinting.com

中華商務聯合印刷 (香港) 集團有限公司成立於 1980 年，由中華書局與商務印書館在港的印刷廠合併而成，是紫荊文化集團旗下聯合出版集團的直屬機構。

2025 年，集團以「上海聯印綠色工廠轉型」為 ESG 核心項目，圍繞「碳盤查升級—實現企業碳中和—獲取科學碳目標認證—創造綠色附加值」主線，率先探索印刷業上下游協同減碳模式：將供應商紙張減碳納入範圍三核算；積極推動運輸供應商以新能源貨車替代燃油車輛；與客戶共同推進包裝輕量化及物料轉換，從全價值鏈降低產品碳排放。面向未來，中華商務會將產品碳足跡核查擴展至核心產品線，並向各子公司輸出碳管理經驗，中長期穩步邁向淨零排放。

C & C Joint Printing (H.K.) Group Ltd. formed in 1980 through the merger of Chung Hwa Book Company and the Commercial Press in Hong Kong, is a large international printing group directly affiliated with Sino United Publishing (Holdings) Limited, and a subsidiary of Bauhinia Culture Group.

In 2025, the Group designated the "C & C Shanghai Green Factory Transformation" as its flagship ESG initiative, anchored by a strategic roadmap of upgraded carbon inventory and accounting, achieving corporate carbon neutrality, Science-Based Targets initiative (SBTi) certification, and green value-added creation. The Group took the lead in exploring a collaborative upstream-downstream decarbonisation model for the printing industry: incorporating carbon reduction in paper sourcing into Scope 3 accounting; actively promoting the replacement of fossil-fuel vehicles with new energy freight vehicles among logistics suppliers; and collaborating with clients to advance packaging lightweighting and material substitution, thereby reducing product carbon emissions across the entire value chain. Looking ahead, C & C will extend product carbon footprint (PCF) verification to core product lines, and disseminate carbon management best practices across its subsidiaries, steadily advancing toward net-zero emissions over the medium to long term.

建業建榮控股有限公司
CHINNEY KIN WING HOLDINGS LIMITED

(HKEX 1556)

公司名稱 Company Name

建業建榮控股有限公司
Chinney Kin Wing Holdings Limited

ESG 核心項目 ESG Core Project

建業建榮學院
Chinney Kin Wing Academy

公司網頁 Website

www.chinneykinwing.com.hk

建業建榮控股有限公司主要從事地基、鑽孔、鑽探及泥井工程，並以「勤奮、誠信、和諧、用心、快樂」5H 核心價值推動 ESG 發展。公司由董事會監督 ESG 策略，建有完善風險管理、內部監控及防貪制度。透過利用創新科技推動減碳、節能、節水及綠色施工，令主要環保指標下降最少三成並維持零違規。同時公司透過篩選、智慧工地及「No Supervision No Work」制度提升安全表現，達致連續三年零工亡，同時積極參與社區及公益活動。

核心 ESG 項目「建業建榮學院」，融合人才培訓、知識管理、AI 發展、安全文化推廣及可持續建築，2025 年合共開發 359 個線上線下培訓課程，完成逾 20,000 小時培訓，培訓涵括公司管理人員至前線工友；學院並結合元龍街項目的 MiC 協作中心「元瀧聚」，舉辦 85 場活動，服務逾 2,000 人次，每月減少約 19 噸碳排放，並獲 CICES 國際可持續發展大獎及 HKCA Carbon Smart Label 認證。未來，公司將進一步結合 AI、ESG 及數碼平台，深化人才培育、知識傳承及綠色施工。

Chinney Kin Wing Holdings Limited is principally engaged in foundation construction, drilling and site investigation, together with related ancillary works. Guided by its "5H" Core Values of Honesty, Harmony, Hardworking, Heart and Happy, the Group remains committed to integrating ESG considerations into its business operations and long-term development. ESG governance is overseen by the Board, supported by comprehensive risk management, internal control and anti-corruption systems.

Through the application of innovative technologies, the Group continues to advance carbon reduction, energy and water conservation, and green construction, achieving reductions of at least 30% across its environmental KPIs while maintaining zero environmental violations. In occupational health and safety, stringent partner screening, Smart Site Safety Systems (SSSS), and strict enforcement of the "No Supervision, No Work" policy have achieved three consecutive years of zero industrial fatalities, alongside active corporate social responsibility (CSR) community initiatives.

The Key ESG initiative is the CKW Academy, which is integrated with the MiC Collaboration Centre (元瀧聚) at the Yuen Lung Street project. The initiative brings together talent development, knowledge management, safety culture, digital technology and sustainable construction, providing a platform for continuous learning, knowledge exchange and the sharing of best practices. The YLS MiC Collaboration Centre further demonstrates how innovative site facilities can support digitalised site management, safety training and sustainable construction practices.

In 2025, the Academy delivered 359 online and offline training modules, logging over 20,000 training hours across managerial staff and frontline workers. In collaboration with the "Yuen Lung Gather" Modular Integrated Construction (MiC) Collaboration Centre at the Yuen Long Street project, it hosted 85 engagement sessions serving over 2,000 participant visits and cutting monthly carbon emissions by ~19 tonnes. These sustainability milestones earned the CICES International Sustainable Development Award and the HKCA Carbon Smart Label.

Looking ahead, the Group will continue to deepen the integration of AI, ESG and digital platforms to enhance talent development, knowledge transfer and green construction. By leveraging technology and strengthening organisational capabilities, the Group aims to build a more resilient, future-ready and sustainable organisation, while contributing to the long-term sustainable development of Hong Kong's construction industry.

ESG 核心項目 ESG Core Project

周生生 | 「Harbour of Love」計劃

Chow Sang Sang | Harbour of Love Campaign

公司網頁 Website

www.chowsangsang.com

「Harbour of Love」人工復育珊瑚計劃 於 2022 年啟動，經過三年的努力，於 2025 年圓滿完成，為香港海洋生態修復帶來實質而可量度對大自然的正面成果。

本計劃與香港本地初創企業 Archireef 合作，推出創新的「珊瑚認養計劃」吸引顧客參與。我們於西貢甕缸洲放置 118 塊由 3D 打印的赤陶珊瑚礁盤，覆蓋面積約 20 平方米，為超過 580 株珊瑚碎塊提供穩固的再生基礎，大幅提升棲息地的多樣性，使一度退化的珊瑚礁生態系統重現生機。我們亦培訓員工成為「珊瑚保育大使」，並吸引 300 位顧客參與認養，實現商業與保育的深度融合。

監測結果顯示，珊瑚生長情況理想、存活率高，魚類及無脊椎動物亦重返棲息地，當中包括對維持珊瑚健康極為重要的長刺海膽。修復後的珊瑚礁區域擁有更豐富的生物多樣性及生態韌性，與鄰近海域相比，此修復點獨有物種紀錄達八種，充分展現實質而可量度對大自然的正面成果。

The "Harbour of Love" campaign (2022–2025) marks three years of dedicated effort to restore Hong Kong's degraded marine ecosystems. We are proud to have achieved measurable, nature-positive milestones in marine ecosystem preservation.

Through the three-year partnership with Archireef, a local start-up in Hong Kong, we engaged customers with our pioneering "Coral Adoption Programme". As a result, 118 units of 3D-printed ceramic Reef Tiles were deployed at Bluff Island, Sai Kung, covering an area of approximately 20 square metres. These artificial reef structures provide a stable foundation for over 580 coral fragments (Corals of

Opportunity) to regrow, significantly enhancing habitat complexity and reviving a previously degraded reef ecosystem. We also trained our staff to become "Coral Conservation Ambassadors" and engaged 300 customers in the adoption program, seamlessly integrating business with environmental conservation.

Monitoring results have shown encouraging coral growth and high survival rates, accompanied by the return of fish and invertebrate species, including long-spined sea urchins that play a key role in maintaining coral health. The restored reef area now supports greater biodiversity and ecological resilience, with eight species recorded exclusively at the site compared with adjacent sea areas, demonstrating measurable progress towards a nature-positive outcome.

基督教家庭服務中心
Christian Family Service Centre

ESG 核心項目 ESG Core Project
CFSC Green 「We Green」

公司網頁 Website

www.cfsc.org.hk

基督教家庭服務中心（CFSC）成立於 1954 年，是一間扎根香港逾 70 年的多元化社會服務機構，服務涵蓋家庭、青少年、長者、復康、精神健康及環境服務等範疇。CFSC 秉持「以人為本、關愛社群」的理念，積極將 ESG（環境、社會及管治）元素融入服務及營運，透過推動循環經濟、減廢回收、環境教育及社會共融，創造環境及社會價值，促進可持續發展。

作為機構核心環保社企品牌，「CFSC Green – We Green」以「環保 × 共融」為核心理念，致力推廣綠色生活及可持續消費。品牌業務涵蓋企業上門回收服務、環保教育活動及綠色零售平台「We Green ESG Shop」，為企業及公眾提供多元化環保方案，並透過社會企業模式創造共融就業機會，協助企業實踐 ESG 目標，共建低碳、共融及可持續的未來。

Founded in 1954, Christian Family Service Centre (CFSC) is a diversified social service organization rooted in Hong Kong for over 70 years. Its services span across family and child welfare, youth development, elderly services, rehabilitation services, mental health services, and environmental services. Upholding its service philosophy of "Person Oriented, Family Centred", CFSC actively integrates environmental, social, and governance (ESG) elements into its services and operations. By promoting the circular economy, waste reduction and recycling, environmental education, and social inclusion, the organization creates environmental and social value while fostering sustainable development.

As the organization's core environmental social enterprise brand, "CFSC Green – We Green" is built on the core philosophy of "Environmental Protection × Inclusion," dedicated to promoting green living and sustainable consumption. The brand's operations encompass corporate door-to-door recycling services, environmental education activities, and the green retail platform "We Green ESG Shop". It provides diverse environmental solutions for both enterprises and the public. Through a social enterprise model, the brand creates inclusive employment opportunities, helping individuals with disabilities and diverse backgrounds participate in the green economy. Ultimately, it assists businesses in achieving their ESG goals while working hand in hand with the community to build a low-carbon, inclusive, and sustainable future.

俊和 - 群利聯營體
CW - KL JV

俊和 - 群利聯營體致力將可持續發展理念融入業務營運，以環境友善方式管理資源及能源。因應氣候變化帶來的極端天氣挑戰，渠務署於尖沙咀推展雨水排放系統改善工程，透過興建蓄洪池、雨水泵房及增建雨水渠等設施，提升區內防洪能力。

作為低碳建造管理先導項目，工程將減碳措施貫穿設計、施工及營運階段，並採用實時碳管理平台、替代施工設計及 4D BIM 技術，以提升效率及減少資源消耗。同時，項目保育具地區特色的大榕樹，兼顧低碳建築、生態保育及社區景觀價值，並以取得「綠環評新建建築」鉑金級認證為目標。

工程成果顯著，2024 至 2025 年間燃料使用量減少 73.3%，碳排放下降 79.5%，回收量增至 2024 年的 7.27 倍。團隊亦透過完善環境管理措施實現零檢控目標，並積極推動社區參與，包括提供防洪物資及成立緊急應變隊伍，提升社區防洪意識和抗災能力，為尖沙咀建設更安全、更具韌性的生活環境。

CW-KL JV is committed to integrating sustainability into its business operations by managing resources and energy in an environmentally responsible manner. To address the challenges posed by climate change and increasingly frequent extreme weather events, the Drainage Services Department is implementing the Tsim Sha Tsui Stormwater Drainage Improvement Works. The project includes the construction of an underground stormwater storage tank, a pumping station, and additional stormwater drains to enhance the area's flood protection capacity.

As a pilot project for low-carbon construction management, carbon reduction principles have been incorporated throughout

公司名稱 Company Name

www.chunwo.com

the design, construction, and operational stages, establishing a low-carbon construction model for industry reference. The project adopts a real-time carbon management platform to continuously monitor and optimize carbon emissions performance. Alternative construction designs and 4D Building Information Modelling (BIM) technology are utilized to improve construction efficiency and reduce resource consumption. In addition, a distinctive banyan tree with local heritage value is preserved in situ, balancing low-carbon development, ecological conservation, and community landscape value. The project also targets achieving the Platinum rating under the BEAM Plus New Buildings certification scheme.

The project has delivered significant environmental benefits. Between 2024 and 2025, fuel consumption was reduced by 73.3%, while carbon emissions decreased by 79.5%. The recycling volume in 2025 was 7.27 times that of 2024. Through comprehensive environmental management measures, the project has effectively minimized environmental impacts on the surrounding community during construction and achieved a zero-prosecution record. The project team has also actively promoted community engagement initiatives, including the provision of flood protection materials and the establishment of an emergency response team, helping to enhance public awareness of flood preparedness and community resilience while contributing to a safer and more resilient living environment in Tsim Sha Tsui.

康業服務有限公司秉持新鴻基地產「以心建家」的宗旨，將可持續發展視為核心動力，並納入業務策略及營運中。由管理層領導的 ESG 督導委員會，落實企業可持續發展文化、訂立目標及方向，並以「為未來．服務」目標推動全員參與。康業支持 2050 年前碳中和路線圖，訂立環保政策，在能源管理、節約用水、減廢回收、綠色建築、電氣化及應對極端天氣等範疇上有清晰的目標。在企業管治方面，由董事會、風險審計委員會及內部監控系統設立「三道防線」管理風險，確保營運合規、聲譽維護、財政健康、資訊安全及業務穩健發展。

康業自 2014 年發起「PeaceBox 祝福大行動」，連結慈善機構、學校、教會、商界及業戶，透過捐贈的物資及網上捐贈平台，將糧食、日用品、玩具和文具經配對後送贈給基層家庭。活動成功動員義工及青少年探訪受惠者，培養公民責任，促進社區關愛與共融。

Hong Yip Service Company Limited upholds Sun Hung Kai Properties' core value of "Building Homes with Heart" and regards sustainable development as a key driver embedded throughout its business strategies and operations. The ESG Steering Committee, under the senior management leadership, drives a culture of sustainability across the Company, sets strategic goals and directions, and promotes company-wide participation through the "SERVICE for

Tomorrow" initiative. Hong Yip is committed to a carbon neutrality roadmap by 2050, with clearly defined environmental targets spanning energy management, water conservation, waste reduction and recycling, green buildings, electrification, and extreme-weather preparedness. In corporate governance, the Board of Directors, Risk Management and Audit Committee, and internal control system implement a "Three Lines of Defence" framework to manage risks, ensuring regulatory compliance, brand reputation, financial soundness, information security and stable business development.

Since 2014, Hong Yip launched the PeaceBox Campaign, connecting charitable organisations, schools, churches, business and residents. Through donated-goods matching and an online donation platform, the Campaign donated food, daily necessities, toys and stationery to underprivileged families. Through meaningful visits to beneficiaries, the campaign connects youth and volunteers to their communities, building a culture of civic responsibility, care, and inclusion.

嘉華集團成員 A member of K. Wah Group

嘉華建材為銀河娛樂集團的全資附屬公司，致力提供垂直式綜合建材，產品涵蓋石料、礦渣微粉、水泥及其他建材產品。作為嘉華集團立業逾半世紀的基石，嘉華建材一直秉承「採石取材，建家興國」的理念，生產基地由香港拓展至澳門及中國內地，並以可持續發展為核心，為持份者創造長遠價值。

為配合國家「雙碳」目標及邁向碳中和，嘉華建材積極加快減碳步伐，引入生物質熱解氣化技術，取代天然氣及高爐煤氣，為礦粉烘乾系統提供清潔燃氣，推動能源結構優化及低碳轉型。項目實現上料、產氣、出渣至溫控的全流程自動化，顆粒物及氮氧化物排放全面達標，降低燃料成本，達致降本增效，為礦粉行業提供低碳轉型示範，展現我們推動綠色建材及可持續發展的承擔。

K. Wah Construction Materials (KWCM), a wholly owned subsidiary of Galaxy Entertainment Group, is a vertically integrated construction resources company supplying aggregates, ground granulated blast-furnace slag (GGBS), cement, and other building materials. As the cornerstone on which the K. Wah Group has built its business for over half a century, KWCM upholds the philosophy of "Construction for the Betterment of the Country". Its production facilities have expanded from Hong Kong to Macau and Mainland China, with sustainable development at the core of its business to create long-term value for its stakeholders.

To support the national "Dual Carbon" goals and advance towards carbon neutrality, KWCM has been actively accelerating its decarbonisation efforts by introducing biomass pyrolysis gasification technology. This technology replaces conventional fuels such as natural gas and blast furnace gas by providing clean fuel gas for the slag powder drying system, thereby optimising the Company's

由房屋局資助的過渡性房屋計劃，為有迫切住屋需要的個人及家庭提供安全、穩定而可負擔的居所，紓緩基層住戶的住屋壓力，讓他們在安穩的基礎上重整生活。

東華三院「東寓」秉持「住得到，活得更好」的理念，以可負擔租金減輕住戶經濟負擔及心理壓力，並協助他們建立穩定的居住環境。「活得更好」不止於有瓦遮頭，更是讓住戶重拾生活節奏、建立自信、連繫社區，並真正活出生活。因此，「東寓」透過工作坊、興趣班及講座，支援兒童及青少年成長、成人生活技能、就業及理財培訓，以及親子和社區連結，回應住戶不同階段的需要。

展望未來，東華三院將繼續把 ESG 理念融入社會服務，主動了解住戶需要，整合社區資源，為基層家庭提供適切而持續的支援，協助住戶建立更穩定、自主和可持續的生活模式，長遠提升生活韌性與自我發展能力。

Funded by the Housing Bureau, the Transitional Housing Programme aims to provide safe, stable and affordable accommodation for individuals and families with urgent housing needs. By easing housing pressure, the programme enables residents to rebuild their lives on a more secure and dignified foundation.

Guided by the philosophy of "A place to live, a better life to build", T-Loft by TWGHs provides affordable rents to ease residents' financial burden and psychological stress, while helping them establish a stable living environment. "A better life to live" goes beyond having a roof over one's head; it is about helping residents regain their daily rhythm, rebuild confidence, connect with the community and truly live their lives. Through workshops, interest classes and talks,

T-Loft supports children and youth development, adult life skills, employment and financial management training, as well as parent-child and community connection, responding to residents' needs at different stages of life.

Moving forward, TWGHs will continue to integrate ESG principles into its social services by proactively understanding residents' needs and mobilising community resources to provide appropriate and sustainable support for grassroots families. Upholding our core mission, we will assist residents in building a more stable, self-reliant and sustainable way of life, thereby enhancing their long-term resilience and capacity for personal development.

環保 x 防騙 《ESG「毛」窮無盡》傳訊息

"ESG 'Furry' Christmas" Spreads a Message:
Environmental Protection x Anti-Scam

公司網頁 Website

www.wb.com.hk

2025 年，恒基物管部「偉邦」推出《ESG「毛」窮無盡》聖誕，運用毛公仔製作聖誕樹，更與香港警務處合作，製作防騙吉祥物「提子」聖誕樹，攜手推廣可持續發展理念之餘，更進一步肩負社會責任，向業戶及社會各界宣揚防騙意識。

「偉邦」早於 2025 年 5 月便啟動毛公仔回收計劃，並獲得旗下屋苑業戶的踴躍響應，成功回收逾 20,000 隻毛公仔，製作了逾 200 棵毛公仔聖誕樹。

在環保聖誕布置的基礎下，與警務處公共關係部合作，將計劃推向兼具環保與社區教育的新領域。「偉邦」運用超過 6,000 個「提子」毛公仔，在各屋苑打造接近 100 棵「提子防騙聖誕樹」。「偉邦」透過這次合作，與警方共同推廣可持續發展理念，並向住戶及公眾傳遞重要的防騙信息。

Henderson Property Management Department – Well Born Real Estate Management Limited used different kinds of recycled material, such as plastic bottles, books, and aluminum cans to create Christmas trees to decorate its residential estates from 2022 to 2024.

In 2025, we launched "ESG 'Furry' Christmas", recycling over 20,000 secondhand plush toys creating more than 200 Christmas trees. For the first time, we collaborated with the Public Relations Wing of the Hong Kong Police Force, utilizing over 6,000 anti-scam mascot "The Little Grape" plush toys to create 100 "Grape" Christmas trees, promoting sustainable development and raising awareness

聖誕節過後，「偉邦」全線屋苑用來製作聖誕樹的的毛公仔將二次回收，並交由合辦機構紫荊社轉贈予有需要人士，包括受大埔宏福苑大火影響之兒童及當區學校，實踐社會關懷。

of fraud prevention within the society, pushing the ESG Christmas concept to a deeper level.

After the Christmas festivities, we collected the plush toys again for secondary recycling. They were then handed over to our co-organiser, Bauhinia Association, for distribution to those in need, including children affected by the Tai Po Wang Fuk Court fire and local schools. The programme reflects our commitment to turning community support into tangible action achieving the ultimate ESG principle.

皇冠爐具 (集團) 有限公司

Crown Gas Stoves (Holdings) Company Limited

ESG 核心項目 ESG Core Project

廢物重生・綠色蛻變

Waste Reborn · Green Transformation

公司網頁 Website

www.crown-cgs.com.hk

皇冠爐具 (集團) 有限公司於 1979 年成立，銷售高效能燃氣爐具、抽油煙機及熱水爐等。公司以「資源守護」為本，推動「從銷售、回收到再造」的一條龍模式，將環保融入營運、品牌及客戶體驗。憑藉車隊及物流優勢，皇冠爐具於門市及合作夥伴店舖設置回收點，回收卡式氣罐、報廢爐具、熱水爐、玻璃容器及咖啡渣，並由本地專業團隊安全拆解、分類及破碎，轉化為再生材料或創作素材。過去一年多，公司已回收逾 1,000 公斤金屬物料，並透過送貨同步回收，減少空車往返及能源消耗。ESG 核心項目「廢物重生・綠色蛻變」更將廢棄暖燈改造成卡式氣罐回收桶，展現升級再造創意。公司亦提供企業物料升級再造及 ESG / 減碳報告整理服務，並舉辦工作坊及與非政府組織合作，推動社區參與，讓閒置物料延續價值，實踐低碳、環保及循環經濟。

Crown Gas Stoves (Holdings) Company Limited was founded in 1979 and specialises in the production of high-performance gas stoves, range hoods and water heaters. The Company places "resource stewardship" at the heart of its business. In recent years, the Company has developed an integrated model covering sales, collection and upcycling, embedding environmental responsibility into its operations, brand development and customer experience.

Leveraging its fleet and logistics capabilities, the Company has established collection points at its retail outlets and partner stores to collect gas cartridges, discarded stoves, water heaters, glass containers and coffee grounds. The collected materials are safely dismantled, sorted and shredded by local professional teams before being transformed into recycled materials or creative materials for upcycling projects. In the past year, the Company has recovered more than 1,000 kilograms of metal. By combining collection with delivery routes, it also reduces empty vehicle trips and energy consumption.

Upcycling Workshop at the Expo

Gas cartridge recycling bin

Upcycled products

Under its ESG core project, "Waste Reborn · Green Transformation", discarded outdoor heaters are creatively transformed into collection bins for gas cartridges, demonstrating how waste can be given a second life through innovative upcycling.

The Company also provides corporate material upcycling services, helping businesses recover idle materials generated from their operations, including metal, glass, plastics and other suitable materials. Following assessment, sorting and processing, these materials can be converted into recycled materials for different applications or used in upcycling workshops. In addition, the Company assists enterprises in compiling ESG and carbon-reduction reports.

Through workshops and collaboration with non-governmental organisations, Crown Gas Stoves encourages community participation, promotes circular economy and enables idle resources to retain their value, contributing to a low-carbon, environmentally responsible and circular future. This approach not only reduces waste and resource consumption, but also turns sustainability into practical action. By combining professional recovery, local design and production, corporate collaboration and public education, the Company supports Hong Kong's green economy and inspires more organisations to participate in sustainable development.

億達動力科技有限公司
E.Tech Dynamic Technology Co., Ltd.

億達動力科技有限公司成立於 2014 年，致力於推廣新能源產業，專注於電動商用車、自動駕駛技術、智慧機器人及無人機的全方位研發與應用，旨在打破傳統汽車產業模式，推動綠色出行，實現「更完善的智慧生活」。

公司透過多元化新能源車型與智慧化管理，構建全方位綠色公共交通生態：

綠色科技與社群定製：於交通樞紐部署 19 座電動小巴，採用 10 分鐘快充技術解決續航焦慮；同時針對非政府組織、社福機構及旅遊景點需求，定製低地台及生態導賞車型，將環保出行融入社會服務與綠色旅遊。

智慧治理與減碳效益：自研車隊管理系統，實現全天候能耗與安全監測，提升營運效率約 20%，顯著降低市區碳排放。

創新領航與永續擴展：率先引入「自動駕駛」技術，攜手科研機構與交通營辦商 推動社區及跨境口岸營運；未來將結合太陽能充電與大數據，推動地區綠色轉型，打造亞洲智慧交通標竿。

Established in 2014, E. Tech Dynamic Technology Co. Ltd. is dedicated to advancing the new energy industry. The company focuses on the comprehensive R&D and application of electric commercial vehicles, autonomous driving technology, smart robotics, and drones—aiming to disrupt traditional automotive business models, promote green mobility, and realize the vision of a "smarter and better life."

Through a diversified fleet of new energy vehicles and intelligent management systems, the company builds a comprehensive green public transport ecosystem:

工業黑桶全鏈路循環回收體系
Whole-chain Closed-loop Recycling System for Industrial Black Drums

公司網頁 Website

www.hth.group/aboutus

鴻達行針對傳統清潔劑行業「一次性大體積塑膠桶」造成的嚴重資源浪費與環境負擔，自主研發並成功運行了一套完整的黑桶循環再利用閉環系統。

該體系打通了「物流配送 → 空桶回收 → 深度清洗 → 消毒再灌裝」的全鏈路流程，徹底改變了傳統製造業單向線性的物料流向，實現了化工包材的無限循環利用。我們不僅是簡單的回收，而是配套建立了專業的化學品容器清洗標準，從源頭確保再填充產品的安全性與品質穩定性。

Addressing the severe resource waste and environmental burden caused by traditional single-use, bulky plastic drums in the conventional detergent industry, Hongda has independently developed and successfully implemented a comprehensive closed-loop system for the recycling and reuse of black drums.

This system integrates the entire end-to-end chain of "logistics delivery → empty drum recovery → deep cleaning → disinfection and

refilling," completely transforming the traditional unidirectional linear flow of materials in manufacturing and achieving infinite recycling of chemical packaging materials. Rather than simple collection, we have established professional chemical container cleaning standards from the ground up to ensure the safety and quality stability of the refilled products at the source.

經典商用車及乘用車油改電普及化計劃

Plan for the Popularization of EV Conversion of
Classic Commercial and Passenger Vehicles

公司網頁 Website

www.refinedmotor.com

本公司參與 2026 年「香港 ESG 獎」中小型企業特別獎，以「經典商用車及乘用車油改電普及化計劃」為核心 ESG 項目。

計劃透過將傳統燃油商用車及乘用車改裝為電動車，推動香港交通運輸業綠色轉型，兼顧技術創新與普及化商業模式，讓中小企及個人車主以較低成本參與減碳。

環保方面，電動化改裝顯著降低碳排放及廢氣排放，改善路邊空氣質素，配合香港 2050 年前碳中和願景。社會方面，創造綠色就業機會，推動新能源汽車維修及技術培訓，促進產業鏈發展。管治方面，本公司建立完善 ESG 管理架構，確保項目符合可持續發展原則，並定期披露進度與減碳成效。

作為在香港註冊並具實質業務的中小型企業，我們深信此計劃體現中小企推動 ESG 的創新力與執行力。期望透過參獎分享經驗，激勵更多中小企將可持續發展融入核心業務，共同為香港綠色未來作出貢獻。

Our company is actively participating in the 2026 Hong Kong ESG Awards: Special Award for SME, with the "Plan for the Popularization of EV Conversion of Classic Commercial and Passenger Vehicles" as our ESG core project for the competition.

Our company is actively participating in the 2026 Hong Kong ESG Awards: Special Award for SME, with the "Plan for the Popularization of EV Conversion of Classic Commercial and Passenger Vehicles" as our ESG core project for the competition.

This plan aims to promote the green transformation of Hong Kong's transportation sector by retrofitting traditional fuel-powered commercial and passenger vehicles into electric vehicles. The project

not only focuses on technological innovation but also emphasizes the development of a scalable business model, enabling more SMEs and individual car owners to participate in carbon reduction efforts at a relatively lower cost.

From an environmental perspective, the plan significantly reduces vehicle carbon and exhaust emissions through electrification conversion, improving roadside air quality and aligning with the Hong Kong government's vision of achieving carbon neutrality by 2050. On the social front, the project creates green job opportunities locally, promotes new energy vehicle maintenance and technical training, and facilitates the development of related industrial chains. In terms of corporate governance, our company has established a robust ESG management framework to ensure that the project adheres to sustainable development principles throughout implementation, with regular disclosure of project progress and carbon reduction achievements.

As a small and medium-sized enterprise registered in Hong Kong with substantive business operations, we firmly believe that this project demonstrates the innovation and execution capabilities of SMEs in advancing ESG initiatives. Through participating in this award, we hope to share our experience with the industry, inspire more SMEs to integrate sustainable development concepts into their core business operations, and collectively contribute to a greener future for Hong Kong.

Enertainer 電池儲能系統取代柴油發電機

**Enertainer Battery Energy Storage System
Replacing Diesel Generators**

公司網頁 Website

www.chunwo.com/zh-hk

浩隆建築有限公司主要從事地底設施興建及水管工程，致力實踐「Committed to a Sustainable Future」，將環境保護、社會責任及企業管治全面融入工程管理及營運策略之中。

在承建貝澳水管工程期間，考慮到項目毗鄰生態河及濕地等具重要生態價值的自然環境及社區，本公司積極尋求更環保的施工方案。為此，我們於 2025 年引入 Enertainer 電池儲能系統，為隧道鑽挖機（TBM）及工地設施供電，全面取代傳統柴油發電機，開啟香港水管工程電力化施工的新里程。

電力化方案讓工地成功達成零柴油消耗，並把施工噪音降低 50%，顯著改善鄰近居民的生活質素。同時徹底消除柴油儲存、運輸及洩漏風險，改善工友工作環境，兼顧環境保護、社區和諧與營運效益。

貝澳項目的成果證明低碳、零排放施工在香港具備可行性與實際效益，推動行業邁向更可持續的未來。

Vasteam Construction Limited is a leading contractor specializing in underground utility and waterworks projects. Guided by its vision, “Committed to a Sustainable Future,” the company embeds sustainability, environmental stewardship, and social responsibility into every aspect of its operations.

During the construction of the Pui O Watermain Project, Vasteam recognized the site's environmental sensitivity, with nearby streams, wetlands, and local communities requiring special protection. To minimize its environmental footprint, the company adopted innovative and sustainable construction practices.

In 2025, Vasteam introduced the Enertainer Battery Energy Storage System (BESS) to power the Tunnel Boring Machine (TBM)

and site facilities, replacing conventional diesel generators entirely. This initiative marked a significant step forward in the electrification of Hong Kong's waterworks construction sector.

The transition to battery-powered operations eliminated diesel consumption on site and reduced construction noise by up to 50%, creating a quieter environment for nearby residents. It also removed the risks associated with diesel storage, transportation, and fuel leakage, enhancing workplace safety while reducing environmental impacts.

By combining clean energy technology with responsible construction practices, Vasteam successfully balanced project efficiency, environmental protection, and community well-being. The project demonstrates that low-carbon, zero-emission construction is both practical and effective for large-scale infrastructure works.

The success of the Pui O Watermain Project sets a strong example for the industry and highlights the potential of sustainable construction solutions in Hong Kong. Through innovation and commitment, Vasteam continues to support the development of greener infrastructure and contribute to a more sustainable future.

城巴有限公司（城巴）成立於 1979 年，一直秉承創新思維及提供優質服務的理念，現已發展成為香港領先的公共交通服務營運商，擁有超過 1,700 輛巴士及逾 5,000 名專業員工，路線網絡遍及港島、九龍及新界，每日服務近百萬名乘客。

為進一步實現減排目標，以及確保城巴業務發展方向與香港的零排放目標保持一致，我們積極推動綠色運輸，並分別於 2021 年引入全港首部雙層電能巴士及 2022 年引入全港首部氢能巴士。2024 年，我們的氢能巴士正式啟航，並行駛 20 號線為顧客提供服務，標誌著香港歷史上首次有氢能車輛在路面載客行駛。

公司網頁 Website

www.ctil.com/trad_chinese

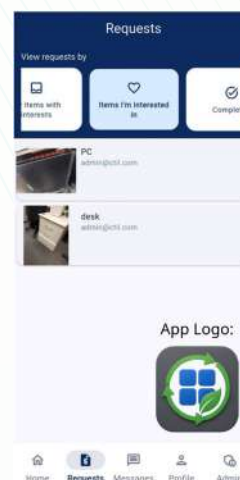

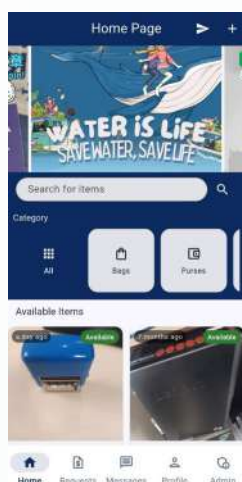

科聯系統集團有限公司深信科技是推動可持續發展的引擎，致力將 ESG 理念融入營運，推動無紙化並邁向香港 2050 碳中和目標。

為進一步深化環保實踐，科聯員工發揮 IT 專業，以零額外成本自主研發出專屬的「物品分享平台」，成功將過往短期的回收活動，升級為標準的日常企業環保行動。

該平台全面支援 iOS 及 Android 系統，嚴格規定無償轉贈，促進閒置物品流通並賦予其新價值，實踐循環經濟。同時，平台應用雙向評分機制，有效打破部門隔閡，大幅增強跨部門溝通與員工歸屬感；系統更內建嚴格的審核及數據分析功能，確保營運透明可控。

展望未來，科聯將持續以創新科技帶動全體員工，共建具凝聚力的綠色職場文化。

Computer And Technologies Holdings Limited (C&T) firmly believes that innovative technology serves as the core engine driving sustainable development. As a forward-thinking enterprise, we are deeply committed to seamlessly integrating Environmental, Social, and Governance (ESG) principles into our daily business operations. By actively promoting comprehensive paperless workflows and adopting proactive green strategies, C&T is proudly advancing toward Hong Kong's ambitious 2050 carbon neutrality goal.

To further deepen our environmental initiatives, C&T employees capitalized on their robust IT expertise to internally develop an exclusive "Item Sharing Platform" at absolutely zero additional cost. This remarkable technological achievement has successfully transformed traditional, short-term recycling campaigns into a standardized, highly engaging, and daily eco-friendly corporate practice that resonates throughout our organization.

Fully optimized for both iOS and Android devices to ensure maximum accessibility, the platform strictly enforces a non-monetary sharing policy. This effectively promotes the continuous circulation of idle items, giving them renewed value and actively fostering a robust circular economy. Furthermore, the application utilizes an interactive two-way rating system that successfully breaks down traditional departmental silos. This significantly enhances cross-departmental communication, mutual trust, and a profound sense of employee belonging. From a governance perspective, the system features built-in, rigorous auditing mechanisms and comprehensive data analytics capabilities, ensuring that all operational activities remain highly transparent, secure, and fully controllable.

Looking ahead, C&T will continue to harness the power of innovative technology to empower and inspire all employees, collaboratively cultivating a highly cohesive, responsible, and vibrant green workplace culture.

德高貝登 全港首個戶外廣告綠色認證
JCDecaux Transport – First Green Mark Outdoor Advertising Certification in Hong Kong

公司網頁 Website

www.jcdecaux-transport.com.hk

作為全港 No.1 戶外廣告媒體，德高貝登攜手國際權威檢測機構 SGS，破天荒推出「全港首個戶外廣告綠色認證 (Green Mark)」，樹立業界可持續發展的新里程碑。

本項目由 SGS 嚴格核實德高貝登的 ESG 政策，將企業的綠色承諾轉化為客觀、具公信力的認證體系。獲認證的廣告客戶可獲得專屬電子證書與綠色徽章，輕鬆融入行銷素材中，向大眾與市場清晰傳遞其環境保護的決心。

德高貝登旨在透過此創新指標，發揮業界領袖作用，帶動廣告生態圈全面實踐 ESG，攜手各界共創可持續的綠色未來。

As Hong Kong's leading outdoor advertising company, JCDecaux Transport has partnered with SGS to pioneer Hong Kong's first Green Mark Outdoor Advertising Certification, establishing a key sustainability milestone for the industry.

Independently audited by SGS against JCDecaux Transport's ESG policy, this initiative translates sustainability commitments into a credible accreditation framework. Certified advertisers receive official e-certificates and green badges to integrate into their campaign collaterals, seamlessly communicating their environmental commitment to the public.

Through this pioneering benchmark, JCDecaux Transport exercises industry leadership to drive ESG adoption across the advertising ecosystem and build a sustainable future together.

2026 嘉咸節
Graham Festival 2026

公司網頁 Website

www.kanghong.com.hk

市區重建局聯乘「同心網絡」首度舉辦「2026 嘉咸節」，旨在透過「康泓數碼」的「創新方案」，全方位協助百年嘉咸市集進行綠色與經濟轉型，並在嚴格的資源與時間限制下達成以下可量化的轉型成效：

1. 跨界籌劃與落實地區共融：獲信和集團無償借用「嘉咸商舖」作為活動基地，攜手實現「2026 嘉咸節」
2. 多元活動與品牌升級：康泓提供技術顧問，協助設計師和學生為街販升級塑造出具有代表性的「嘉咸品牌」
3. 共創永續模式：結合導賞團與消費獎賞，促進舊區永續自主更新的新消費模式。
4. 經濟：打造「嘉咸品牌」：帶動商販營業額增長至 25%
5. 環境與綠色策展：採用 UL GREENGUARD Gold 認證材料，將整體策展碳排放量降低 40%。
6. 跨代社會連結：動員 300 名青年共創，吸引逾 10,000 名市民參與，深化百年老街的文化傳承。

URA and 2Gather Launch Inaugural "2026 Graham Festival", powered by the "Innovative Solutions" of "Kang Hong Digital Image", this initiative drives the comprehensive green and economic transformation of the Century-Old Market. Despite tight resource and time constraints, the partnership delivered the following quantifiable milestones:

1. Cross-Sector Inclusion: Secured rent-free use of Sino Group's "Graham Shops" as the event hub to launch the festival.
2. Brand Elevation: "Kang Hong Digital Image" served as technical consultant, empowering designers and students to build an iconic "Graham Brand" for local street vendors.
3. Sustainable Models: Combined guided tours with consumer rewards to build a self-sustaining urban renewal consumption model.
4. Economic Growth: Boosted vendor revenues by 25% through the new "Graham Brand."
5. Green Curation: Used UL GREENGUARD Gold materials to slash exhibition carbon emissions by 40%.
6. Social Connection: Mobilized 300 youth co-creators and drew over 10,000 citizens to preserve the street's century-old cultural heritage.

人才百年傳承：以人為本的可持續發展計劃

Talent Across a Century:

A People-First Sustainability Programme

公司網頁 Website

www.garden.com.hk

2026 年，嘉頓將迎來創立一百週年。承接「讓中國人吃得好」的百年使命，本項目以「人才百年傳承：以人為本的可持續發展計劃」為核心，透過系統化人才管理、員工關懷及安全健康措施，推動企業與員工共同成長，展現嘉頓以人為本及可持續發展的承諾。

項目聚焦四大支柱：一、凝聚歸屬感，讓員工以嘉頓為家；二、培育人才，透過技藝傳承及發展機會成就未來；三、守護安全職場，建立安心、健康的工作環境；四、邁向國際標準，積極追求 ISO 14001 環境管理及 ISO 45001 職業健康與安全管理雙重認證。

本項目已於 2024 年 10 月正式啟動，並同步成立內部 ESG 委員會，進一步推動可持續發展工作。嘉頓將繼續秉持初心，將百年傳承轉化為照顧員工、實踐企業責任及共創長遠價值的行動，攜手邁向下一個百年。

嘉頓榮獲 ISO 14001 及 45001 認證
Garden Receives ISO 14001 & 45001 Certifications

嘉頓年度管理會議
Garden Townhall Meeting

In 2026, Garden will celebrate its 100th anniversary. Guided by its century-old mission to “May the Chinese Eat Better”, this project, “Talent Across a Century: A People-First Sustainability Programme”, places people at the heart of sustainable development. Through systematic talent management, employee care and occupational safety and health initiatives, Garden aims to grow together with its employees while demonstrating its long-standing commitment to people-first management and sustainability.

The project focuses on four key pillars: first, building a strong sense of belonging so that every employee feels at home at Garden; second, nurturing talent through craftsmanship inheritance and development opportunities to shape the future; third, safeguarding the workplace by creating a safe, healthy and reassuring working environment; and fourth, advancing towards international standards by actively pursuing dual certification in ISO 14001 Environmental Management and ISO 45001 Occupational Health and Safety Management.

Launched in October 2024 together with the formal establishment of Garden’s internal ESG Committee, the initiative further strengthens the company’s sustainability efforts. Garden will continue to uphold its original aspiration and translate its century of heritage into concrete actions that care for employees, fulfil corporate responsibility and create long-term value. By working hand in hand with its people, Garden is committed to moving confidently towards the next hundred years.

低碳行動 – 綠能 + 快充電車

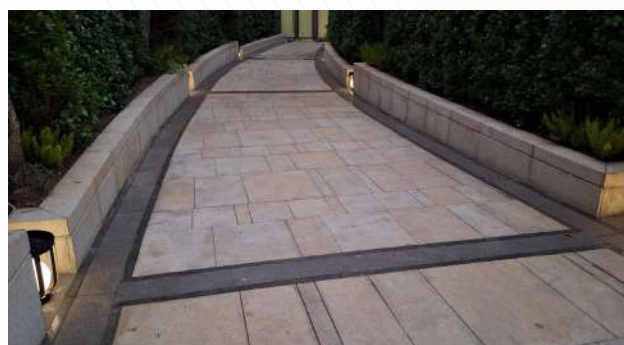

Low Carbon Action – Renewable Energy + EV Charging

公司網頁 Website

www.rgke.com.hk

九龍東帝苑酒店作為新鴻基地產 (SHKP) 旗下酒店積極支持 ESG 承諾，節能、客人舒適度等多個方面努力，推動可持續發展。酒店於戶外加裝太陽能照明，共 250 支，每年可節省 5000kWh，減低碳排放，以及建設 4 個充電站、共 8 個快充位，服務量約為每月 50,000 kWh，把 < 低碳出行 > 變成真實可使用的設施，增強外界對酒店 ESG 的認可，並提升服務多元化與運營貢獻。

新鴻基地產及九龍東帝苑酒店團隊的共同努力，正是推動可持續發展的強大基石，並展現了團隊合作在實現酒店環保目標中的關鍵角色。

室外安裝太陽能燈照明

於酒店停車場建設 4 個充電站、共 8 個快充位

As part of Sun Hung Kai Properties (SHKP) and The Royal Garden Kowloon East actively supports its commitment to ESG. The hotel team continuously strives for sustainable development across various areas, including energy-saving systems and enhancing restaurant guest comfort. The hotel has installed 250 outdoor solar light which have energy save approximately 5,000kWh yearly, thereby reducing carbon emissions. In addition, hotel has built EV charging stations which has demand 50,000kWh/month, enable to provide practical support for low-carbon mobility.

The joint efforts of Sun Hung Kai Properties (SHKP) and The Royal Garden Kowloon East team form a strong foundation for advancing sustainable development, showcasing the importance of teamwork in achieving the hotel's environmental goals.

宗旨 Objective

「香港 ESG 獎」旨在表彰努力提升 ESG（環保、社會責任及企業管治）表現並取得突出成績的香港公司，激勵各行各業貫徹可持續發展理念，以負責任的態度營運業務，為經濟、社會和生態環境創造長遠的價值。

The "Hong Kong ESG Awards" (ESG Awards) recognises Hong Kong companies that have made strenuous efforts and attained remarkable achievement in advancing ESG (Environmental Performance, Social Responsibility and Corporate Governance), with an aim to encourage Hong Kong industries to uphold sustainable development, operate business with a responsible attitude, and create long-term value for the economy, society and ecological environment.

主辦機構 Organiser

香港中華廠商聯合會為獎項的主辦機構；香港品牌發展局為「合辦機構」(Co-organiser)，廠商會檢定中心為「策略夥伴」(Strategic Partner)；香港生產力促進局、香港品質保證局、香港董事學會、香港理工大學及香港聯合國教科文組織協會等擔任「協辦機構」(Collaborating Organisations)；香港數碼港管理有限公司、香港城市大學、香港浸會大學、香港都會大學、香港樹仁大學、嶺南大學、聖方濟各大學、香港教育大學、香港恒生大學、香港科技大學及香港大學等擔任「支持機構」(Supporting Organisations)。

The "Hong Kong ESG Awards" is organised by The Chinese Manufacturers' Association of Hong Kong (CMA), with the Hong Kong Brand Development Council (BDC) as the "Co-organiser" and the CMA Testing as the "Strategic Partner". "Collaborating Organisations" include Hong Kong Productivity Council, Hong Kong Quality Assurance Agency, The Hong Kong Institute of Directors, The Hong Kong Polytechnic University and UNESCO Hong Kong Association. "Supporting Organisations" include City University of Hong Kong, Hong Kong Baptist University, Hong Kong Cyberport Management Company Limited, Hong Kong Metropolitan University, Hong Kong Shue Yan University, Lingnan University, Saint Francis University, The Education University of Hong Kong, The Hang Seng University of Hong Kong, The Hong Kong University of Science and Technology, and The University of Hong Kong.

參加資格 Eligibility

1. 參加企業或機構必須持有有效的香港商業登記證明，並且於香港有實質的業務運作。
2. 參加企業或機構須持有由主辦機構發出、有效之「ESG 約章」簽署證明
3. 獎項的評審範圍可涵蓋參選企業於香港、內地以及海外所管控（具擁有權、控制權、實質影響力或密切關聯性）的業務及活動。
4. 往屆獲得主要獎項的企業須暫停參加同一組別獎項的資格一年（得獎次年），之後可再參加遴選；獲得「一般組別」獎項的企業不得再參選「中小型企业特別獎」。

1. Participants must have a valid Hong Kong Business Registration Certificate and substantial business operations in Hong Kong.
2. Participants must also possess a valid "ESG Pledge" signatory certificate issued by the organiser
3. The evaluation for the awards may encompass the business and activities in Hong Kong, Mainland China, and overseas.
4. Companies that have previously won a main award cannot enter the same category for the next year. Additionally, companies that have won the award in the "General Stream" are not eligible to participate in the "SME Stream".

獎項 Award Categories

- 香港 ESG 大獎
- 香港 ESG 獎
- 香港 ESG 獎：中小型企业特別獎
- 香港 ESG 獎：優異證書
- Hong Kong ESG Grand Award
- Hong Kong ESG Award
- Hong Kong ESG Awards：Special Award for SME
- Hong Kong ESG Awards：Certificate of Merit

評審標準 Judging Criteria

1. 評審基於「整體表現」和「項目表現」兩個層面進行。參選企業須陳述自身在 ESG 方面的整體表現和作為，並提交一項於最近一年內已經完成或正在推行並與可持續發展相關的代表性項目，作為參賽的 ESG 核心項目。
 2. 整體層面的 ESG 表現側重於考察參選企業在「可持續發展理念」、「環保表現」、「社會責任」、「企業管治」等四個方面的努力與成效。
 3. ESG 核心項目的績效將重點考察「策劃與執行力」、「價值與效益創造力」、「創新力」以及「持續發展力」。
1. The selection is primarily based on "Overall Performance" and "Project Performance". Participating companies must give an account of their work and overall performance in regard to ESG, and at the same time submit an "ESG Core Project" for assessment, which refers to a representative project related to sustainable development, having been completed in the past year or being implemented by the entry.
 2. The assessment on "ESG Overall Performance" focuses mainly on the efforts and achievements of the participating companies in four aspects, including "Sustainability Mindset", "Environmental Performance", "Social Responsibility" and "Corporate Governance".
 3. ESG Core Project is reviewed along four dimensions, i.e. "Planning & Implementation", "Values & Impacts", "Innovativeness" and "Continuing Development".
