Overview 概要

In today's competitive global economy, companies and organisations have to explore different ways to stand out in the crowd. Certification is an effective tool to show one's competence. It helps companies and organisations demonstrate their commitment to delivering consistent quality service and products that meet customers' expectations, and assure compliance of their systems and products with international standards. It enhances and reinforces customers' confidence as well as adds credibility. In light of the benefits brought about by certification, some government departments and organisations even make certification a contractual requirement for tenders.

This seminar aims to introduce the latest development of certification including the newly developed ISO 45001 Occupational and Safety Management Systems Certification and updated versions of different management system certification released by International Organisation for Standardardization (ISO) such as ISO 50001:2018 Energy Management System Certification. Speakers will share their experience in making use of certification service to accomplish their objectives.

在現今競爭激烈的全球化經濟下，公司與機構須利用不同方法突圍而出，而認證是一種有力工具用以證明自身的能力。認證除確定公司與機構的系統和產品符合相關的國際標準之外，亦幫助它們展示其提供持續優質服務和產品的承諾，以滿足顧客的要求。認證提升和鞏固客戶的信心，並加強公信力。由於認證所帶來的好處，有些政府部門和機構更會把認證定為投標合約的規定。

是次研討會旨在介紹認證的最新發展，包括國際標準化組織（ISO）最新推出的ISO 45001職業健康安全管理體系認證，以及不同管理體系認證的最新版本如ISO 50001:2018能源管理體系認證。研討會講者亦會分享他們使用認證服務的經驗和心得。
