### **Company Info :**

INCOMPASS IP LIMITED comprises a team of attorneys based in our Hong Kong office. Our attorneys are registered and practice in a diverse range of jurisdictions, including Hong Kong, Mainland China, Europe, UK, Australia and New Zealand. We provide international IP services directly to local clients. Our worldwide services provide the strategic advantage of ensuring uniformity of prosecution of multi-jurisdictional IP filings as well as reduced prosecution costs.

We are an award-winning firm with attorneys who have been recognized as world-leading practitioners. Our services include: filing and prosecuting trade mark and patent (e.g. invention patent, utility model patent, and design patent) applications, drafting of patent specifications, patentability and infringement searches and opinions, trade mark searches, etc. We are also well-versed with securing IP rights for industries such as telecommunications, chemical and chemical engineering, pharmaceuticals, biotechnology and bioengineering, material science, nanotechnology, green technology, electronics, LED technology, computer hardware, software and computer-implemented inventions, mechanical and mining engineering, semiconductor technologies, robotics, artificial intelligence and fintech, etc.
