### Company Info :

HCL Consulting Limited was established to meet customer satisfaction and add valued services since 12th January 2001. HCL project team consists of professional engineers, architects, surveyors and builders in order to tackle site problems in a professional way.

Most of our building professionals have extensive site experiences, professional judgment and integrity for large and complex building and civil/building engineering projects that involved architectural design, interior design, structural calculation, master program planning, method statements and technical submission, drawings & sketches preparation, contract documents preparation, safety, quality & environmental inspection and management.

### First-time purchase offer :

CMA member can enjoy HK\$200 offer for the first time purchase.
