

Webinar on Climate Change Mitigation: What can you do right now?

COP26 is over and we can take stock and reflect on the progress that has been made, but with countless ambitious goals being set and continued pressure on everyone to make changes, 2022 will be a big year for climate mitigation action. What can you do now? This Webinar invites businesses to share "what and how climate change mitigation investment decisions are made", update their latest progress and practices in climate change mitigation, and how they are preparing for climate action. Their success stories are invaluable to professionals who need to make or evaluate investment decisions.

Climate Change Mitigation: What can you do right now?

Speaker Biography

Ir Raymond KY Poon, Deputy Director, the Electrical & Mechanical Services Department, The HKSAR Government

Ir Raymond KY POON is the Deputy Director of the Electrical and Mechanical Services Department. He is overseeing the enforcement of legislations in ensuring public safety on using electricity, gas, railway and other electrical and mechanical installations, and promoting energy efficiency and conservation as well as application of renewable energy in Hong Kong.

Ir POON has been working in the government for over 25 years and taken up professional and managerial roles in the areas of engineering services, project management, business development as well as regulatory enforcement. Ir POON received his Bachelor of Engineering degree in Electrical and Electronics Engineering and Master of Science degree in Environmental Management from the University of Hong Kong. He has also obtained his Executive MBA degree from the Chinese University of Hong Kong in 2019.

Ms Melanie Kwok, Assistant General Manager (Sustainability), Sino Group

Melanie is the Assistant General Manager (Sustainability) of Sino Group, she oversees a range of sustainability projects related to ESG Stakeholder, Stakeholder Engagement and Heritage Conservation. Being a specialist in the realm of Sustainable Development for over 13 years, Melanie has also gained extensive experiences in Sustainable Tourism and Stakeholder Engagement.

Melanie holds a Bachelor of Science Degree in Environmental Management from the Imperial College London, a Master Degree of Science in Environment and Development from the London School of Economics and Political Science, a Postgraduate Degree in Sustainable Business from the University of Cambridge. She is also a certified Sustainable Tourism Professional by Global Sustainable Tourism Council.

Climate Change Mitigation: What can you do right now?

Ir. Henry N S Cheung, Managing Director, KONE Elevator (Hong Kong) Limited

Ir. Henry Cheung was a graduate of the University of Toronto Faculty of Applied Science and Engineering, Division of Engineering Science. He also attained the qualification of Master of Business Administration from Deakin University in Melbourne, Australia .

Ir Henry Cheung has over 30 years' experience in the railway engineering industry, serving in various capacities in the client, consultant and supplier organization and has delivered railway systems around the world. His most notable contribution was his leadership in the first replacement of a signalling system to the Hong Kong MTR network and the introduction of the first Communication Based Moving Block Train Control system to the KCRC West Rail and Ma On Shan Lines.

Ir Cheung is renowned in the local engineering community and global railway industry. He has served in various positions in many professional institutions and has lectured in post-graduate level railway engineering courses.

Ir. Cheung is a Registered Professional Engineer (Electronics and Control, Automation & Instrumentation); Chartered Engineer (United Kingdom); Professional Engineer (Ontario, Canada); Fellow of the Institution of Engineering and Technology; Fellow of the Hong Kong Institution of Engineers, Fellow of the Institution of Railway Signal Engineers; Senior Member of the Institute of Electrical and Electronic Engineers; and Fellow of the Hong Kong Information Technology Joint Council. He is also actively involved in the profession: being a Council Member of the Hong Kong Institution of Engineers; executive member of the Hong Kong Information Technology Joint Council; Vice Chairman of the Railway Signal Engineers Hong Kong Branch; member of the Hong Kong Institution of Engineers Electronics Professional Advisory Panel; Board member of the Smart City Consortium; member of the Consultative and Advisory Panel of the Hong Kong Internet Registration Corporation Limited; member of the Advisory Committee, Department of Electronic Engineering, Chinese University of Hong Kong.

Ms Emma Harvey, Group Sustainability Manager, Gammon Construction Limited

Emma is Group Sustainability Manager for Gammon Construction Limited. She joined Gammon in 2015 and is responsible for advising on project-specific environmental issues as well as driving sustainability initiatives across Gammon. Her current focus is on implementation of their Responsible Growth – 25 by 25 sustainability strategy.

Emma has 25 years' professional experience in Hong Kong, Shanghai and Ho Chi Minh City. Her background covers environmental consulting, multi-disciplinary project management, value and construction risk management facilitation, business development, sustainable urban planning, tourism planning and green buildings.

Emma is a member of the Business Environment Council's Climate Change Business Forum, the Executive Committee of the HK Institute of Environmental Impact Assessment, the HK Green Building Council's Sustainable Development Committee, and serves as a Vice Chair of the British Chamber of Commerce's Environment and Energy Committee.
