亞洲頂尖貿易展倡導綠色產業復甦

Green Recovery 綠色復甦

The COVID-19 pandemic disrupted economies worldwide and now many countries are integrating green and sustainable policies into their economic recovery plans. For instance, the Mainland Chinese Government has emphasised the development of green finance and a low-carbon economy in the 14th Five-Year Plan. Meanwhile, the HKSAR Government has expanded the citywide recycling network and introduced a Green Tech Fund.

2019冠狀病毒病大流行影響了全球經濟,而現時許多國家正把綠色及可持續發展政策納入其經濟復甦計劃。例如,中國內地政府在第十四個五年計劃中強調綠色金融及低碳經濟的發展。與此同時,香港特區政府擴展了全城回收網絡,並推出低碳綠色科研基金。

Carbon Neutrality 碳中和

Many countries and regions in the world, including Mainland China and Hong Kong, have pledged to achieve carbon neutrality between 2050 – 2060. This will accelerate the implementation of carbon reduction through various policies and boost demand for sustainable products and solutions.

全球許多國家及地區,包括中國內地及香港,已承諾於2050年至2060年前實現碳中和。透過落實不同政策,加快減碳步伐,並帶動對可持續產品及解決方案的需求。

Green Finance and ESG 綠色金融以及環境、社會及管治 (ESG)

There is strong demand for green funding in the region and more investors consider environmental, social and governance (ESG) as some of the most important factors in making investment decisions.

區內對綠色金融的需求強大,而愈來愈多投資者亦將環境、社會及管治視為投資決策的最重要因素之一。
